FAN FILM PROLOGUE

At the center of the universe exists Eternia, a world where science and magic meld to form heroes and villains unimagined by us. The most vile of them, Skeletor, seeks to take control of Eternia's crowning jewel...the seat of infinite knowledge...the throne that governs the universe, Castle Grayskull. He-Man, the most powerful man in the universe, valiantly battles the treacherous advances of Skeletor in this timeless tale of supreme good vs. ultimate evil.

The fan short film *Fall of Grayskull* is essentially the climax scene of what would be a full length movie. The film was made possible through the generous support of Masters of the Universe fans from around the world. This comic serves to tell the story of events that take place prior to the start of the film. This entire project has been a labor of love, and we truly hope you enjoy what we have painstakingly produced.
